MUHAMMED SALMAN

Android Developer | Kotlin | Jetpack Compose | XML | Flutter

Kerala, India | +91-8089103518 | muhammedsalman183547@gmail.com | linkedin.com/in/mhmdsalman18 | github.com/MhmdSalman18 | mhmdsalman18.github.io/Portfolio

PROFESSIONAL SUMMARY

Android Developer with 1.5+ years of production experience in **Kotlin, Jetpack Compose, XML Views, and Flutter**. Contributed to **20+ Android apps** and independently published **5+ apps on the Google Play Store** across finance, e-commerce, attendance, church management, and ERP. Experienced in **REST API integration, Firebase, MVVM, and hardware integrations** (NFC, QR scanning, thermal printers, number-plate recognition).

TECHNICAL SKILLS

Languages: Kotlin, Java, Dart

Android and Cross-Platform: Android SDK, Jetpack Compose, XML Views, Android Jetpack, Material Design, Flutter, Google Play Console

Libraries: Coroutines, Kotlin Flow, Retrofit, Room, Hilt, ViewModel, LiveData, Navigation Component

Architecture and Networking: MVVM, MVP, Clean Architecture, Repository Pattern, Dependency Injection, REST APIs, JSON, Local Storage, Performance Optimization

Firebase: Cloud Messaging (FCM), Authentication, Firestore, Storage, Crashlytics, Analytics

Hardware and SDKs: NFC (read/write), QR Code Scanning, Plate Recognizer API, Thermal Receipt Printing (Sunmi, Neetum), Face Recognition

Tools and Fundamentals: Git, GitHub, Android Studio, Figma, OOP, Data Structures, Algorithms, Debugging, Agile

PROFESSIONAL EXPERIENCE

Android Developer | **Oges Infotech** | *Kerala, India* | *March 2025 – Present*

- Contributed to **20+ Android apps** and independently built and published **5+ apps on the Google Play Store** using Kotlin, Jetpack Compose, and MVVM.
- Refactored legacy UI and API-handling code, reducing screen load times and reported UI bugs by **30%**.
- Defined REST API contracts with clients and backend teams for ERP and attendance systems handling **500+ daily records**.

Flutter Developer Intern | **Leopard Tech Labs** | *Kerala, India* | *May 2023 – Jun 2023*

- Built a Flutter food delivery app from scratch with REST API integration for menus, orders, and real-time order status.

PROJECTS

Prime Valet - Smart Valet Parking App | *Kotlin, Jetpack Compose, NFC, QR, Plate Recognizer API, Thermal Printing*

- Built an Android valet app for Sunmi and Neetum devices with receipt printing, number-plate recognition, NFC card read/write, and QR scanning; customers request and track their car via QR or NFC, and valet executives are notified and update delivery status.

ES Global - Attendance Management System | *Kotlin, XML, NFC, Face Recognition*

- Built attendance with **face recognition and NFC-card** check-in, enrollment flows, separate employee and admin authentication, and bulk history views, scaling to **500+ employees**.

Vincent Tyres LLC - Workshop ERP | *Kotlin, Jetpack Compose, REST APIs*

- Built an end-to-end job-card ERP (intake, inspection, job costing, stock tracking, quotation approval, quality check), replacing a paper-based process and reducing handoff errors.

CredenceAI - Personal Finance Manager | *Kotlin, Jetpack Compose, On-Device Processing*

- Built a privacy-first finance app parsing UPI, wallet, and bank notifications **entirely on-device** with a rule-based classifier, eliminating manual entry for **80%+ of transactions**.

Church Management App Template | *Kotlin, Jetpack Compose, REST APIs*

- Built a white-label template (members, events, donations) reused across **5+ client deployments**.

Zeal Fresh - Meat Delivery E-Commerce Platform | *Kotlin, XML, REST APIs*

- Built customer and delivery-agent apps with checkout, live order tracking, and order queues; supported **1,000+ orders**.

EDUCATION

B.Tech, Information Technology | **Amal Jyothi College of Engineering** | *Kerala, India* | *2021 – 2025* | *CGPA: 7.4*

ACHIEVEMENTS

- **Finalist**, Smart India Hackathon 2024 – built a 3D educational game for children.
- **1st Place**, UI/UX Competition, IEEE SB Vadakara; **2nd Place**, UI Design Hackathon, M. Dasan Institute; **Finalist**, Hackengers (Livewire) 2024.
